WEIGHTED AVERAGE OVERTIME PAY RATE WORKSHEET

Section 1 Calculation of Weighted Average Overtime Rate

Total Hours Worked

X Regular Pay

= Base Pay

+ Other Eligible Earnings (from Eligible Earnings Calculation)

= Total Base Pay

*** Weighted Average Overtime Pay Rate (calculated below)**

$$\begin{array}{rcccl}
 & & \div & & = \\
 \text{Total Base Pay} & & & \text{Total Hours Worked} & \text{Weighted Average Overtime Rate}
 \end{array}$$

* Use this pay rate to calculate one-half time pay on the Retroactive Overtime Pay Worksheet (FI 19).

Section 2 Other Earnings Included in Base Pay

The following Other Eligible Earnings were paid in the same pay period the overtime was worked:

<u>Wage Type - Description</u>	<u>Amount</u>
--------------------------------	---------------

Total
